Since 1980, the IEEE Symposium on Security and Privacy has been the premier forum for computer security research, presenting the latest developments and bringing together researchers and practitioners.

We solicit previously unpublished papers offering novel research contributions in any aspect of computer security or privacy. Papers may present advances in the theory, design, implementation, analysis, verification, or empirical evaluation of secure systems.

Topics of interest include:
- Access control
- Anonymity
- Application security
- Attacks and defenses
- Authentication
- Censorship and censorship-resistance
- Distributed systems security
- Embedded systems security
- Forensics
- Hardware security
- Intrusion detection
- Malware
- Metrics
- Language-based security
- Network security
- Privacy-preserving systems
- Protocol security
- Recovery
- Secure information flow
- Security and privacy policies
- Security architectures
- System security
- Usability and security
- Web security
- Systematization of Knowledge Papers
- This topic list is not meant to be exhaustive; S&P is interested in all aspects of computer security and privacy. Papers without a clear application to security or privacy, however, will be considered out of scope and may be rejected without full review. See back for detailed submission instructions.

Important Dates
- All deadlines at 23:59 PST (UTC-8). No extensions.
- Workshop proposals due: Friday, 21 August 2009
- Workshop notification: Friday, 4 September 2009
- Research papers due: Wednesday, 18 Nov 2009
- Systematization of Knowledge papers due: Tuesday, 24 Nov 2009
- Paper decision notification: 1 February 2010
- Final papers due: 1 March 2010

Workshops
- The Symposium is also soliciting submissions for colocated workshops. Workshop proposals should be sent by Friday, 21 August 2009 by email to Carrie Gates (carrie.gates@ca.com). Workshops may be half-day or full-day in length. Submissions should include the workshop title, a short description of the topic of the workshop, and biographies of the organizers.

Program Committee
- Program Committee Co-Chairs: David Evans, University of Virginia and Giovanni Vigna, UC Santa Barbara

Giuseppe Ateniese, Johns Hopkins  
Nikita Borisov, U. of Illinois, Urbana-Champaign  
Shuo Chen, Microsoft Research  
Debin Gao, Singapore Management University  
Michael Goodrich, UC Irvine  
Rob Johnson, Stony Brook University  
Shriram Krishnamurthi, Brown University  
Michael Locasto, George Mason University  
Jonathan McCune, Carnegie Mellon  
Vern Paxson, UC Berkeley  
Stuart Schechter, Microsoft Research  
Radu Sion, Stony Brook University  
Dawn Song, UC Berkeley  
Patrick Traynor, Georgia Tech  
Brent Waters, UT Austin  
Michael Backes, Saarland University / MPI-SWS  
David Brumley, Carnegie Mellon University  
Anupam Datta, Carnegie Mellon University  
Jon Giffin, Georgia Tech  
J. Alex Halderman, University of Michigan  
Ergin Kirda, Eurecom, France  
Christopher Kruegel, UC Santa Barbara  
Sergio Maffeis, Imperial College London  
David Molnar, Microsoft Research  
Mike Reiter, University of North Carolina  
Hovav Shacham, UC San Diego  
Sean Smith, Dartmouth College  
Angelos Stavrou, George Mason University  
V. N. Venkatakrishnan, U. of Illinois at Chicago  
Westley Weimer, University of Virginia  
Felix Wu, UC Davis  
Adam Barth, UC Berkeley  
Cristian Cadar, Imperial College London  
Nick Feamster, Georgia Tech  
Virgil Gligor, Carnegie Mellon University  
Somesh Jha, University of Wisconsin  
Yoshi Kohno, University of Washington  
Ruby Lee, Princeton University  
Z. Morley Mao, University of Michigan  
Cristina Nita-Rotaru, Purdue University  
Andrei Sabelfeld, Chalmers University  
Vitaly Shmatikov, UT Austin  
Adam Smith, Pennsylvania State U.  
Ed Suh, Cornell University  
Dan Wallach, Rice University  
Xiaofeng Wang, Indiana University

Instructions for Paper Submission

These instructions apply to both the research papers and systematization of knowledge papers.

All submissions must be original work and must precisely document any overlap with previously published or simultaneously submitted papers from any of the authors. Simultaneous submission of the same paper to another venue with proceedings or a journal is not allowed. Failure to clearly document such overlaps will lead to automatic rejection.

Anonymous Submission. Papers must be submitted in a form suitable for anonymous review: no author names or affiliations may appear on the title page, and papers should avoid revealing their identity in the text. When referring to your previous work, do so in the third person, as though it were written by someone else. Only blind the reference itself in the (unusual) case that a third-person reference is infeasible. Contact the program chairs if you have any questions. Papers that are not properly anonymized may be rejected without review.

Page Limit and Formatting. Papers must not exceed 15 pages total (including the references and appendices). Papers must be formatted for US letter (not A4) size paper with margins of at least 3/4 inch on all sides. The text must be formatted in a two-column layout, with columns no more than 9 in. high and 3 1/4 in. wide. The text must be in Times font, 10-point or larger, with 12-point or larger line spacing. Authors are encouraged to use the IEEE conference proceedings templates found at: http://www2.computer.org/portal/web/csps/formatting.

Submission. Papers should be submitted using the web submission system linked from the symposium webpage, http://oakland31.cs.virginia.edu/. Submissions must be in Portable Document Format (.pdf). Authors should pay special attention to unusual fonts, images, and figures that might create problems for reviewers. Your document should render correctly in Adobe Reader 9 and when printed in black and white.

Publication and Presentation. Authors are responsible for obtaining appropriate publication clearances; authors of accepted papers are expected to sign IEEE copyright release forms. One of the authors of the accepted paper is expected to present the paper at the conference.

Submissions received after the submission deadline or failing to conform to the submission guidelines risk rejection without review.

For more information, contact the Program Co-Chairs at:
oakland10-pcchairs@ieee-security.org

Posters
There will be a poster session at a reception during the conference. Posters are solicited that present recent and ongoing research on topics related to security and privacy. The poster session is an excellent opportunity to obtain feedback on ongoing work. More information on poster submissions will be available on the conference website.

Work-in-Progress Talks
A continuing feature of the symposium is a session of 5-minute talks where attendees can present preliminary research results and new ideas. More information on work-in-progress talk submissions will be available on the conference website.

Oakland 2010 Symposium Organizers

General Chair
Ulf Lindqvist (SRI International)

Program Chairs
David Evans (University of Virginia) and Giovanni Vigna (UC Santa Barbara)

Treasurer
Al Shaffier (Naval Postgraduate School)

Registration Chair
Deb Frincke (Pacific Northwest Natl Lab)

Publications Chair
Jenny McNeill (SRI International)

Poster and Workshops Chair
Carrie Gates (CA Labs)
